Internship (05/2016 - 10/2016)

Completed Full-time Internship in digital Marketing from Stallion Technologies Pvt Ltd Hyderabad through Internshala .

PERSONAL PROJECTS

Build an app for Wallet to Wallet transfer (11/2016 - 02/2017)

- When Demonetization of banknotes happen in India, most of the people adopted virtual wallet transfers (like Paytm, Mobikwik).
- But most of the wallets missing direct wallet to wallet & transferring back to bank from wallet is challenging, need a minimum balance. The leftover amount cannot transfer to bank.
- So, We build an app to transfer leftover money from one wallet to other so that they can use that amount for like mobile recharging, ordering food.
- We seen a very good response from users, 5k Downloads & worth 3 Lakhs transactions completed in the span of 4 months, but later due to rules and regulations from RBI we stop that service with an idea to build a great product.

ORGANIZATIONS

Youth for Seva (08/2015 - Present)
